Ugh, we can't outrun them forever!
We've gotta hide!
Hide where?!

In plain sight, of course!
What?!
Don't you think that's a little risky?

Nah, those guys are idiots!
The more obvious the hiding spot, the better.
It will always be the last place they look!

You're going to get yourself killed.
No, trust me! Just hide in plain sight and and they'll never be able to find you!
Now hurry- they're coming!

Where you at, rat?!

Ah, crap, I'm so screwed!
Now what do I do?

"The more obvious the hiding spot, the better", huh?
Welp, I super hope he's right!
